INFORMATION ECOSYSTEMS, NEWS MEDIA AND MISINFORMATION: WHAT INFORMATION PROFESSIONALS NEED TO KNOW

Recent studies in misinformation highlight the ways in which our information ecosystems are being manipulated for both good reasons and for nefarious purposes. Knowing which is which is a vital skill for all information professionals!

Join nationally known Communication scholar and SC&I Associate Professor, Matthew Weber to hear how he uses the concept of information ecosystems to understand and make sense of today's complicated news media environment.

Highlights:

- Discover how to unravel the complicated relationship between information ecosystems and policy.
- Learn how to work with archived Internet data to build your own information ecosystem research databases.

Monday, October 18, 2021

12 p.m - 1:00 p.m. ET (audience discussion from 1:00 p.m. - 1:20 p.m. to follow)
